A school climate for professional learning and growth provides opportunities for collaboration, dialogue, and training focused on school and staff work for the purpose of improving student achievement.

As such, Educational Support Professionals must be provided with opportunities to participate in relevant and differentiated trainings from year to year, to build on their effectiveness in serving all students.

Sick leave shall be granted as outlined in Article 10, Sick Leave; and shall be subject to approval and verification by the District. The District may require the employee to furnish a report from a recognized physical or mental authority attesting to the necessity of the leave in cases of suspected fraudulent sick leave claims.

By mutual agreement with Administration and Educational Support Professional, if professional development hours/days are already used by Educational Support Professionals, they shall be allowed to use vacation leave for a regularly scheduled professional development day during the Educational Support Professional’s work year as defined in Article 15.6.

The instructional community is responsible for collegial and professional growth and support, and the union and district will jointly assist school sites and programs to establish and provide meaningful professional development activities.
